Mr. William F. Caton Acting Secretary Federal Communications Commission 1919 M Street, Room 222 Washington, DC 20554

Re: Restrictions on Over-The-Air Reception Devices, CS Docket No. 96-83; and Preemption of Local Zoning Regulations of Satellite Earth Stations (IB Docket No. 95-59)

Dear Mr. Caton:

We are writing to request clarification regarding the possible effect on our business of the rules proposed in the above dockets. We enclose 13 copies of this letter for filing in the record. We understand your proposed rules would invalidate "nongovernmental restrictions" that "impair" a viewer's ability to receive video programming over the air, through wireless cable or by direct broadcast satellite.

#### **Background**

United Dominion Realty Trust is an owner and operator of apartment communities. Currently, we own approximately 36,000 apartment homes in 148 communities in the Southeast. We are a publicly traded real estate investment trust that has operated since 1972.

#### Our Concern

We are concerned that our leases might contain terms that are "nongovernmental restrictions" that "impair" viewing, but we do not know how the proposed rules would be applied. This uncertainty could create unnecessary disputes with our residents.

Our lease has the provision that "no aerial, antenna or other wiring for fixtures for radio or television sets shall be installed or attached to the outside of any building without prior written consent of the Landlord". We would appreciate your guidance in determining if this and any other provision(s) of our lease contain terms that might be considered "nongovernmental restrictions" or "impairments" under the rules you propose.

We enclose a copy of our lease. Please read it and let us know how it violates the proposed rules. Thank you for your assistance.

Sincerely,

United Dominion Realty Trust

John P. McCann President
